M/G Galloway's Three Belvoir Hats Accent Engineer's Modernization Role

(Motivation Blueprint at Mech&Tech, Page 4)

FT. BELVOIR, VA.

(During past months, there's been much talk about Army Modernization. It's going to be a topic of discussion for months ahead, particularly in terms of the fiscal '60 budget.

Looking to 1959, THE JOURNAL in the months ahead will give comprehensive coverage to this critical problem. outlining problem areas and

lem, outlining problem areas and what is being done and what is not being done to solve them. Close by the being done to solve them. Crose by the Pentagon is the huge Army Engineer Center; it seemed an excellent point of vantage for an initial series of re-ports on Army Modernization.)

THE Army's Corps of Engineers, which has handled big and important jobs in the past, is confident that it has the plan with which to tackle the problems of Army Modernization with maximum efficiency and econ-

Gen. Galloway

omy.
At the Engineer Center, they em-phasize that "imagination is king" and that its majesty is not sabotaged by cubic yards of red tape and fouled chan-nels of com-

munication.

Maj. Gen.
Gerald E.

Commanding General, who arrived recently from duty as head of the huge Missouri River Division, explains to a visitor.

"You will note on the organization

surgeon; Col. Everett
G. King, U. S. Army
Hospital commander,
Fort Carson; and Brig.
Gen. Floyd L. Wergeland, executive Dependents' Medical Care director, office of the
Surgeon General, U. S.
Army, discuss the effect
of legislation concerning medical care in the ing medical care in the recent Carson visit of General Wergeland.

Navy Space Age ABC Attire

LOOKING out to 1959, the models shown above are sailors wearing new Space Age Atomic, Bateriological and Chemical Warfare clothing. At far left is a Decontamination Suit with a self-contained air supply, which uses a tiny air blower powered by mercury batteries. Thermal Underwear is shown second from left, also with its self-powered air supply.

In the center is an Aluminized Cold Weather Balloonist's Suit, consisting of Arctic clothing painted with vacuum-coated aluminum. Second from right is an Insulated Engine Room Suit, designed to provide comfort for help by ing in temperatures up to 140°. At the far right is a Wet Weather Stage N which can double as protective clothing in ABC warfare.

The clothing was displayed at the recent Conference on The Cation and High Temperature Behaviour of Textiles in New York City, one sponsor of the Cation which was the Name Clothing and Textiles in New York City, one sponsor of the Cation which was the Name Clothing and Textiles and Textiles and Textiles are not sponsor of the Cation which was the Name Clothing and Textiles and Textiles are not sponsor of the Cation which was the Name Clothing and Textiles are not sponsor of the Cation which was the Name Clothing and Textiles are not sponsor of the Cation which was the Name Clothing and Textiles are not sponsor of the Cation which was the Name Clothing and Textiles are not sponsor of the Cation which was the Cation when the Cation was a sponsor of the Cation which was the Cation when the Cation was the Cation was the Cation was the Cation when the Cation was the Catio

which was the Navy's Clothing and Textile Research Laboratory in Brooklyn, under LCdr. John J. Anderson.

White House Budget Demands Force "Cut-Rate" DoD Package

Term Retention Details, Page 11

CONFRONTED with rock-ribbed budgetary limitations imposed by the White House, the Defense Department has drafted for the new Congress the smallest, cut-rate military legislative package since the Korean War. The Services are hopeful, however, that Congress will take a strong hand in the situation and write a revised program for the Armed Forces.

Aside from the major appropriations bill, which is certain to be marked by controversy on Capitol Hill, Secretary of Defense McElroy has approved 73 proposals which will be waiting for the 86th Congress when it convenes 7 January. Additional cuts ordered by the Budget Bureau and the White House could force

curtailment of the Pentagon's legislative program.

Few items in the legislative package have big price tags. None can compare with such recent measures as the multi-million dollar military pay bills, the -Continued on page 11

Navy Scuttles Line Officer Shuffle

The Navy has shelved temporarily its

blueprints for a wholesale shuffling of restricted Line officers.

The move means that thousands of EDO, AEDO and SDO officers will lose any immediate opportunity to transfer to the unrestricted Line.

It also spells a reprieve for SDO page.

It also spells a reprieve for SDO psychologists, photographers and hydrographers. These categories were due to be abolished.

In addition, the action means that dozens of Navy admirals and captains, hopeful of being relieved of the burden of sitting on selection boards, will have to continue accepting such assignments.

The proposed legislation was first drafted by the Navy and sent to the

Service Families Will Need Capitol Help In '59 To Obtain Adequate Medical Care

Thousands of military families, hit hard by restrictions on medical care, must look to Congress in 1959 to initiate —Continued on next page

Service Families Will Need Capitol Help In '59 To Obtain Adequate Medical Care

drive at the Pentagon has paralyzed any prospects that the Defense Department will seek the added funds that are necessary to restore the MediCare program to

full operation.

The fact is that additional money is needed even to maintain Medi-Care in its present curtailed status.

A realistic diagnosis of the situation affords little cause for optimism. The Pentagon is under orders to save money wherever possible, and during the past year some Members of Congress aimed powerful blows at MediCare.

powerful blows at MediCare.

However, there is one factor that gives some reason for a brighter prognosis.

The influential American Medical Association has declared its intention to fight on Capitol Hill for increased MediCare appropriations. Specifically, the A.M.A. is opposed to the limitations, imposed 1 October 1958, on the use of private physicians by thousands of military

vate physicians by thousands of military families in the United States.

The AMA's House of Delegates has challenged the "restrictive changes" in the MediCare program and expressed regret that Federal facilities are being substituted for private care.

substituted for private care.

In a formal resolution approved during a meeting at Minneapolis, the Delegates called on the full AMA membership to encourage the reestablishment of services provided under the "free choice" principle, thereby accomplishing the original intent of the Act.

Brig. Gen. Floyd L. Wergeland, MC, USA, Executive Director Medicare, has declared that additional money, running possibly as high as \$21 million, will have

total of 18,177 who met eligibility criteria.

to be appropriated (THE JOURNAL, 29 November) to maintain the program at its present level.

Unfortunately, the strongest Congressional champion of medical care for Service families, former Senator William F. Knowland (R-Calif.), who resigned to make an unsuccessful bid for the California governorship, will not be on hand in the new Congress to fight for needed

Senator Knowland was largely responsible for a last-minute maneuver in the 85th Congress which blocked efforts by members of the House and Senate Ap-propriations Committee to make even deeper cuts in the MediCare appropria-

General Wergeland has stated, how-ever, that he is "very optimistic that Congress will support the program." The Defense Department, meanwhile,

still has under study the recommended program for Family Dental Care for the Armed Forces.

This proposal appears headed for a long period of "continued study," with little if any positive action on the part

M/G Ennis Chosen

Maj. Gen. William P. Ennis, jr., will become Commandant of the Army War College, Carlisle Barracks, Pa., 16 Febru-

General Ennis, Deputy CofS for Opera-Ceneral Ennis, Beputy Colla for Operations and Intelligence, Allied Forces Central Europe, will succeed Maj. Gen. Max S. Johnson, Commandant of the War College since October, 1955. General Johnson will retire. of the Department during the first session of the new Congress.

The possibility of such a development is hinged on two important factors: the President's desire to keep budget costs down as much as possible in all depart-ments, and the American Dental Asso-ciation's unexpected withdrawal of sup-

port for the recommendations.

Although at first warmly supporting the plan, the ADA recently did a complete about-face by adopting a resolution which states in effect that the Govern-ment should not concern itself with any type of medical service except for active duty members of the Armed Forces, Service-disabled veterans and indigent

There is little chance the Pentagon will abandon the recommended program, despite the ADA's defection, but it is equally likely that Defense leaders will not force the issue at this time in the face of such formidable opposition and

with the remote possibility of winning Administration backing for necessary funds to put the plan into operation.

Congressional interest, on the other hand, could force the issue into the operand give the Defense Department in opportunity to sell its case to the legiliators.

In fact, MediCare questions, which are certain to come early in the session could raise inquiries about the relate program and thus provide a forum to program and thus provide a forum of the task force which has been studying Dental Care needs.

One thing is certain, the interest of the control of the cont

military families in both programs we continue unabated, with the result the many Senators and Representatives we find their mail running high on both

Navy Scuttles Line Officer Shuffle

From first page— Congress in 1956. It was received coldly, however, and failed to be introduced that

Included in the Defense Department legislative program again in 1957, it was sent back to the Capitol for another try. On its second go-around, the plan was introduced in the House by Representative George Huddleston, jr (D-Ala), but was pigeon-holed in the Armed Services Committee.
The proposal continued to gather dust

for the entire first session of the 85th Congress and remained dormant during

1958, although still on the calendar of the Armed Services Committee.

The new Defense Department legislative package for 1959 has dropped to plan altogether. In response to Journal queries, the Navy said the measure is being re-studied "by a Board of BuPen officers. It appears the Board will recommend major revisions in view of which mend major revisions, in view of whi it will not be in the budget recommend tions" for the current year.

A spokesman in the office of the See retary of Defense advised The Journal
that the plan already has been elim
nated from the list of measures slate
for consideration by the new Congress
As drafted by the Navy originally, the

As drafted by the Navy originally, the proposal authorized EDO, AEDO and SDO officers, in ranks below captain (and Marine Corps SDO officers below the rank of colonel) to transfer to the unstricted Line. It abolished three SDO categories (psychology, photography and hydrography) and added one SDO category (aerology).

The proposal also increased the statement of the statement o

The proposal also increased the cings on the number of restricted in officers who may serve in the combine grades of captain, commander and is tenant commander.

In addition, it provided that few admirals and captains would have to a on selection boards. Under its terms, out three flag officers—instead of the more now required—would have had to sm on boards to select captains; only m flag officer—instead of the three m required—would have had to serve a boards to select commanders; and him captains would have been replaced in nine commanders on boards to select lieutenant commanders and lieutenant

All Navy selection boards would he been authorized to have "nine or more members. They currently are limited

The plan also provided that retire Regular Navy officers could be called serve as members of boards recommending restricted Line and Staff Corps in officers for retention on the active list.

Marine Corps Offers Pilot Training To E

Marine Corps Headquarters has established a new program which permitactive duty enlisted men to make app

active duty enlisted men to make apprearion for assignment to flight training as Marine Aviation Cadets.

BRIG. Gen. William R. Large, jr., will become Commander, 706th Strategic Missile Wing, Francis E. Warren AFB, Wyo., effective 14 January.

He is serving as Special Assistant to General Thomas S. Power, SAC Comander in Chief.

General Large's new command is one of the first two strategic missile wings to be integrated into SAC's retaliatory bomber force. The 706th will be transferred in 15 January from the First Missile Division, Vandenberg AFB, Calif., to the operational control of the 15th Air Force, with headquarters at March AFB, Calif.

Col. Hilbert F. Muenter, present Commander of the 706th, will assume command of the 3510th Flying Training Wing (ATC), Randolph AFB, Tex.

Marine Corps Order 1001.24 gives details concerning the proper form of application which must reach the Commandant (Code AFS) no later than 1 February

Army Reaffirms Pentomic Concept; Orders Changes In Divisions To Boost Firepower

The Army late next Spring will begin reorganization of its infantry and mored divisions, and armored cavalry egiments.

Aim will be to increase combat efficiency, notably by boosting artillery fire-

Army officials said that the total strength of the present "Pentomic" units will not be changed.

The Army said that the changes re-ect recommendations from Service chools and the field commanders who onducted extensive field tests of these mits in the United States, Europe, and he Far East.

"It is expected that other changes will volve with the continued progress and development of military technology," the lamy stated.

army stated.

The changes will be incorporated in the reorganization of units of the National Guard and the Army Reserve and will give these units the benefits of oranization development that has been ested by the active Army.

These changes amount to internal respanizations since the total strength of the present units will not change.

Also, these organizational changes will

include a capacity for absorbing the new weapons systems, target acquisition and combat surveillance equipment, and im-proved means of air and ground mobility which are currently under development.

"The basic pentomic concept adopted in 1957 has proven to be sound and will be retained," the Army said.

INFANTRY DIVISION

Major changes have been approved for the Infantry Division, particularly in the division artillery which will have an increase in firepower.

The reorganized artillery units will consist of five direct support battalions and a general support battalion.

The nuclear delivery capability will be retained in the division and a part of the organic artillery will be self-propelled.

Other changes in the Infantry Division will include an increase from four to five

in the number of rifle companies and the addition of a Combat Support Company in each battle group.

The 4.2 Field Artillery Mortar Battery has been replaced by an Infantry Heavy Mortar Platoon in the Combat Support Company. In addition to the Heavy Mortar Platoon, the new Combat Sup-

port Company in the Battle Group will include organic combat support elements such as the reconnaissance, engineer, and the assault gun platoons.

One rifle platoon will be deleted from each rifle company. The new rifle company will have a weapons platoon and three rifle platoons.

Additions to the division will include a radiological center to predict nuclear fallout, a ground radar section in each battle group, an aircraft field maintenance capability, and a navigational system for control and landing of Army aircraft.

ARMORED DIVISION

While there have been no major revisions in the organizational structure of the Armored division, a redistribution of personnel spaces has increased the division's overall combat effectiveness.

The reconnaissance companies of the reconnaissance battalion have been re-organized thus standardizing the organiorganized thus standardizing the organization of the reconnaissance companies of the infantry and armored divisions and the Armored Cavalry Regiment.

Also, an aircraft maintenance detachment has been added to perform third

echelon aircraft maintenance for the di-

ARMORED CAVALRY REGIMENT

The Regiments, Battalions and Companies will be redesignated as Groups, Squadrons and Troops, respectively.

The regimental service company and medical detachment have been deleted. The functions previously performed by these units have been transferred to the Headquarters and Headquarters Troop of the squadron. The squadrons, as reorganized, will be capable of operating over widely dispersed areas on diverse missions.

The 29 aircraft for the group, concentrated in the aviation company, will increase the group's flexibility as well as increasing its capability for aerial observation, aerial reconnaissance, target acquisition and combat surveillance.

In addition to the aviation company, the group will have a Headquarters and Headquarters Troop and three recon-naissance squadrons. Each squadron will contain a headquarters and headquarters troop, three reconnaissance troops, a medium tank company and a 105mm howitzer battery.

Army Promotes 51 To Temporary Captain

The Army, in Special Orders 249, effective 17 December, advanced 51 first lieutenants to temporary captain. The list includes two members of the WAC—Betty A. Patterson and Elizabeth W. Trible—who held Sequence Nos. 30 and 31 on D/A Circular 624-31, dated 5 August 1958.

Line first lieutenants through Sequence No. 2409 were named for promotion in the Circular.

They are:

Alexander, J V. 34. Alexander, J V. 3d, Arty Allred, B C, QMC Austin, K S, Inf Bearss, D G, Inf Boyd, E T, Inf Bryan, L E, Inf Butler, W G, Inf Chamberlain, W C, Arty

"Motivation" Gets Primary Stress On Mech & Tech Campus; Engineer School's Largest Department Trains 7,000 Students

FT. BELVOIR, VA.

 ${f T}^{
m HERE'S}$ something different about the briefing that is given to a visitor at the Department of Mechanical and Technical Equipment, largest of the Army Engineer School's four academic departments.

Usual technique in a military briefing is to begin with "the mission."

Col. Frank J. Polich, Mech & Tech Director, employs a different tactic. He begins with an action-packed statement on "motivation."

It is the Department's viewpoint, as expressed by Colonel Polich, that "proper

motivation of students is the best possible training aid."

He explains quickly that Mech & Tech has the mission of graduating some 7,000

students this fiscal year. The graduates must be able to handle highly complex and sometimes dangerous equipment, such as that used to power Nike installations and to generate liquid oxygen for missiles.

Noting that large numbers of the Mech & Tech student body lack a high school diploma, Colonel Polich says it is ex-tremely important at the outset of their training and throughout the various courses that students have a strong mo-tivation to learn and become proficient.

Emphasizing that confidence plays a key role in sustained motivation, Colonel Polich insists on the most modern training devices that can be obtained or made. When these are not available from commercial sources, or when it takes too long to obtain them from regular Service sources, the people of Mech & Tech fashion the training aids themselves.

Motivation is given a big lift in such a structure as the "Avenue of Alds" building, where a new student may be shown a color film on liquid oxygen, prepared by the Engineer School, on a rear view projector.

With this projector—15 are on order— an instructor is able to conduct a class in a lighted room, stopping the projector whenever he desires, using overlays or interspersing static slides, as desired, with the film action.

The "Avenue of Aids" includes threedimensional mock-ups of engineer equipment, and an operational cutaway of a diesel engine, loaned to the Engineer School by the Detroit Diesel Engine Division of General Motors.

An intriguing presentation in the "Avenue of Aids" was conducted for a recent

nue of Aids" was conducted for a recent visitor by Lt. Kerry J. Aquardo. Standing before a capping compressor used with the Redstone Missile, he was able by

ing a wand-like pointer to activate and stop action of the machinery without touching any part of the compressor.

In the "Nike Building," Lt. Edgar Loring followed up the theme that "wanting to learn is the first big step" by demon-strating a Nike elevator in action.

This demonstration, which employs an exact replica of the hydraulically operated, electrically controlled 52 feet long and 8 feet wide, 12½-ton elevator used on actual Nike sites, is climaxed by a start-to-finish 18-foot elevation of the Nike into firing position, and the launching of a simulated missile that strikes an unsuspecting visitor harmlessly in the shoulder.

In another building, where LOX simulators are housed, Capt. D. R. Rosson demonstrates how students are motivated and trained by aids, such as plastic model trailers, color-schemed mock-ups, ingen-ious flow boards, and actual control

The captain explains that a red and green light signal system shows students and instructors instantly whether it's a "go" or "no go" situation for each particular problem.

Captain Rosson makes the strong point that "when it's a 'no-go' here, we are able quickly to point out to the student his mistake. In an actual LOX plant operation, a mistake could cost thousands of dollars or result in dangerous accidents."

Colonel Polich and his associates say that a large measure of their success in

maximum utilization of training aids results from cooperation of industry.

Some 34 manufacturers assist the department by supplying aids and ideas, by providing factory training facilities and/or sending factory instructors to the school.

In some cases, techniques developed at the Engineer School are being em-ployed by manufacturers in their own training programs.

The Mech & Tech Department, of which Lt. Col. Willis T. Ellis is Executive Officer, Capt. Stuart C. McArthur, Operations Officer, and Capt. Robert A. McClintock is Supply Officer, with Mr. James V. Davis, jr., as Educational Advisor, supervises the work of four branches. visor, su branches.

One of these is the Missile Support Branch, under Col. Paul A. Shaw, which was organized in April 1956. It includes a Redstone Section under Maj. Marvin L. Schramm and a Nike Section, under Maj. James W. Atwell.

Maj. James W. Atwell.

The Maintenance and Repair Branch, under Maj. James E. McClure (acting), includes six sections: Tractor-Grader, Maj. Clinton C. Fetterman; Crane-Shovel, Mr. Robert O. Paire (acting); Engine-Air Compressor, Maj. Roscoe E. Grisham; Special Equipment Repair, Capt. Stephen H. Hayes; Special Subjects, Mr. Jacob Miller (acting), and Missile Maintenance Support, Capt. Elmer R. Johnson.

Support, Capt. Elmer R. Johnson.

The Technical Equipment Branch, under Maj. James E. Solomon, jr., is made up of the Refrigeration Section, under Maj. Harold L. O'Neill, and the Electronics Section, under Maj. William R. Rollins.

The Construction Equipment Branch, whose Chief is Lt. Col. Edward F. Dudley, has an Academic Section, under Maj. James R. Richardson; a Support Section, under Maj. Robert F. White; a Transportation Section, under Capt. Robert A. Edwards, and a Supply Section. under Mr. wards, and a Supply Section, under Mr. Leslie A. Culver.

The average in-training load of Mech & Tech is approximately 1000 students.

Colonel Polich's staff and faculty in-

cludes a total authorized strength of 71 officers, 666 enlisted men and 108 civilians.

PIPES FROZEN

The Sixth Army "regretfully" has announced disbandment of its "regretfully" famed Pipe Band.

"Recognized as one of the greatest instruments in the Army for the promotion of friendly community relations and civilian good-will," the Sixth Army said, "the kilt-clad organization of bagpipers and drummers has ceased tioning."

It was explained that "economic utilization of personnel in view of manpower shortages faced by the entire Army was given as the rea-son for disbandment of the Pipers. The Pipe Band was considered a marginal activity in comparison with other vital tasks which the Army must perform with greatly reduced manpower."

The Future Of Zeus?

During a recent visit to Colorad Springs, home of the Army Air Defens Command, Secretary Wilber M. Bruck was asked whether the Army would was asked whether the Army would be given operational responsibility for the anti-missile missile Zeus now under de velopment.

Mr. Brucker said that if he were able to make the announcement, he would say "yes," that Zeus would be the opentional responsibility of the Army what it is ready for use. However, he said, the decision will be made by the Secretar

it is ready for use. However, he said, to decision will be made by the Secretary of Defense. "But it is rather significant, he said, "that it is in the Army budget and that we are expected to develop and to do all of the things that are necessary to bring it to fruition.

"We hope that the fact that it is in the budget, that the Army has been given the mission to research and develop it, will ripen into the firing of it. And we think that it is just an extension the Nike family which we already have and it would be a very logical conclusion for the Defense Department to make.

"I cannot say, it would be very presumptive for me to say that I think the Secretary of the Defense ought to do! All I can say is that we urge that it is

Lt Colonel

Army Navy Air Force Journal 27 Dec. 1958 (Vol. 96, P. 497)

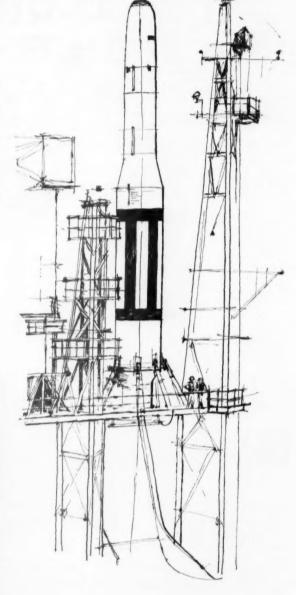

TWO COLS. TO SAIGON

Col. John T. Barrett, G-1, and Col. Sidney G. Brown, jr., G-4, of First Army, Governors Island, N. Y., have been ordered to the Army Element of the U.S. Military Assistance Advisory Group in Saigon, Vietnam.

Colonel Brown is the son of Col. (USA-Ret.) and Mrs. Sidney G. Brown of 1537 Seventh Avenue West, Brandenton, Fla. His brother is Cdr. Willim S. Brown, USN.

There is nothing else like this under the sun. It is the Martin-Denver facility, birthplace of the Air Force TITAN. It is also this country's most advanced and fully integrated big-missile development center. Here, our most formidable weapon systems of tomorrow are being designed, built and tested-from the smallest component to the total system—within a single 7,000 acre complex. Every top military and scientific expert who has seen Martin-Denver from within, considers it one of our most valuable national resources.

Navy Selects 3204 For Lt. and LCdr.

THE Navy has chosen 2217 line lieutenants (jg) for promotion to lieutenant. Also selected for higher rank were 540 Staff Corps lieutenants and 447 lieutenants (ig).

tenants (jg).

The breakdown of Staff Corps selections to lieutenant commander is: MC, 102;
DC, 35; MSC, 29; Nurse, 96; Chaplains, 52; SC, 145; SC (WAVES), 1, and CEC, 51.

Staff Corps selections to lieutenant are: MSC, 55; Nurse, 105; Supply, 142; Supply (WAVE), 2; Chaplains, 103; and CEC, 40.

Navy Tells Plans For Shore Cuts, 30 Activities Will Be Affected

The Navy, reporting that the action was necessary "to balance the shore establishment with the reduction in size of operating forces" will disestablish or reduce activities at 30 installations in 17

A Pentagon announcement added that "rapidly changing concepts of naval fare, coupled with rising prices, higher wages and increased costs of procurement have required the general reduction in the Naval Establishment."

The state-by-state breakdown of individual facilities affected, along with the type of reduction and approximate dates of effectiveness follows:

Arkansas—Naval Ammunition Depot, Shumaker, will be disestablished by 30 June 1964.

1964.

California—Naval Auxiliary Air Station; El Centro, will be reduced in status as soon as possible after the first of the year.

Naval Repair Facility, Naval Supply Depot, San Diego, will be consolidated with the Naval Supply Depot, San Diego, by September 1959.

Construction Battalion Center, Port Hueneme, will reduce its activities beginning in January 1959.

-Naval Air Station, Denver, will

Colorado—Naval Air Station, Denver, will be disestablished, effective 30 June 1959. Florida—Naval Air Reserve Facility, Miami, will be disestablished, effective 30 June 1959. Naval Air Technical Training Center, Jack-sonville, will be inactivated effective 1 July

1959.

Idaho—Naval Ordnance Plant, Pocatello, will be disestablished after 30 June 1959.

Louisiana—Supervisor of Shipbuilding (Office), New Orleans, will be disestablished as

July 1959 Massachusetts—South Boston Annex, Bos-

ton Naval Shipyard, will be inactivated by

Naval Regional Accounts Office, Boston, will be disestablished 30 April 1959. Naval Ammunition Depot, Hingham, will be disestablished by 30 June 1962.

Mississippi—Construction Battalion Center, Guifport, will be reduced in status by 1 July

1980.

Nebraska—Naval Ammunition Depot, Hastings. will be disestablished but the date is indefinite.

New York — Naval Air Station, Niagara Falls, will be disestablished effective 30 June

1959.
Naval Material Catalog Office, Brooklyn, will be disestablished as of 30 June 1959.
Naval Supply Depot. Scotia, will be disestablished by 31 December 1959.
Training Device Supply Office. Port Washington, will be disestablished 31 May 1959.
Naval Clothing and Textile Office. Brooklyn, will be relocated in Philadelphia in April 1959.

Naval Clothing and Textile Chice. Brook-lyn. will be relocated in Philadelphia in April 1959.

Ohio—Naval Air Station. Columbus, will be disestablished 30 June 1959.

Okiahoma—Naval Air Technical Training Center. Norman, will be disestablished by 1

July 1959.

Naval Ammunition Depot. McAlester, will be reduced in status by 30 June 1959.

Pennsylvania.—Naval Ammunition Depot. Ft. Mifflin (Philadelphia), will be disestablished by 30 June 1960.

Submarine Supply Office. Philadelphia, will

be relocated to Mechanicsburg, by 31 De Shipbuilding Scheduling Activities, Philadelphia, will be reduced in status by 1 July

Rhode Island—Construction Battalion Cen-ter. Davisville. will be reduced in force by 203 civilian employees by 1 February 1959.

Texas—Overhaui and Repair Activity, Naval Air Station, Corpus Christi, will be inactivated by 1 July 1959.

Virginia—Naval Air Station, Chincoteague, ill be disestablished by 1 July 1959.

Naval Aviation Ordnance Test Station, Chincoteague, will be disestablished by 30

Washington — Naval Ammunition Depot, Bangor, will be reduced in status by 31 Aug. 1959.

Marine Selection Board Chooses 69 For Pay-Grade W-3: 86 Make W-2

A Marine Corps selection board has named 69 chief warrant officers and 86 warrant officers for pay-grades W-3 and W-2. The board, headed by Col. Louis Metzger of Headquarters Fiscal Division, considered all CWO-2's who will have completed six years in grade during calendar year 1959. The in-grade requirement for promotion of W-1's to CWO-2 was completion of three years service during 1959.

There were no selections to CWO-4 since no officers serving in pay-grade W-3 will meet the six year requirement next year.

Advancements to W-3 and W-2 will be affected during 1959 as selectees reach

their anniversary date of service.
Other members of Colonel Metzger's board were: Lieutenant Colonels John Doard were: Lieutenant Colonels John T. Hill, Robert E. Brown, Paul H. Kel-logg and Frank Johnson; Capt. Ray Woodward, jr., Recorder; and 1st Lt. Richard P. Lee, Assistant Recorder. Of the 69 CWO-2's picked for pay-grade W-3, four were named for tempo-rary raph since their perments are

rary rank since their permanent appointments as W-2 are dated earlier than their temporary appointments.

Here are the lineal lists of the se-

The project, dubbed SATS (Short Airdel for Tactical Support), is expected bolster the Corps' doctrine of vertical elopment.

Key item under test is a new type of anding matting to be used with a mobile presting gear. In addition, a fully-squipped, portable, operations tower is

eing evaluated.

If tests prove successful, a 30-man eneer platoon would be able to set up Since Marine aircraft weighing about 10 tons land at speeds close to 150 milesper-hour, a durable matting surface is essential. The Marine Corps is striving to find a matting surface that will last for 30 days and support 1,250 landings.

Also under test is a portable optical

landing device. Both the 1,100-pound oplanding device. Both the 1,100-pound operations tower and the optical device are small enough to be hauled by helicopter. Marine Corps officials said that if the optical system under test proves a success, it will replace the larger Mirror Landing System developed by the British and currently used aboard aircraft carriers

Beaufort officers conducting the SATS program state that if the entire system proves its value, "several of these portable landing and launching fields, dis-

persed as a defense against atomic knock-

out, would offer supporting fighter planes nearby points from which to carry on the fight."

Maj. Robert Parnell of Aviation Section, MCB Quantico, heads the SATS project. Maj. Raymond Damm, also from Quantico, is Engineer and Assistant Project. ect Officer.

They are supported by a 30-man engineer platoon from Camp Lejeune, N. C., under Lt. John Peavey, and a six-man crew to operate the mobile arresting gear. This crew is led by T/Sgt. J. M. Reed, of Cherry Point, N. C.

Four Commands Shift At MCRD Parris Island

Lt Col. Richard S. Johnson, Command-Lt. Col. Richard S. Johnson, Command-R. Headquarters and Service Battalion, (CRD Parris Island, S. C., has assumed imilar duties with the Third Recruit raining Battalion, relieving Lt. Col. Ed-

and E. Hammerbeck.
Colonel Hammerbeck shifted to Recruit
mining Regiment Headquarters pend-

main transfer this month.

Maj. Nicasio J. Zagone, Battalion Legal
Mer, has succeeded Colonel Johnson, aiting arrival of a new H&SBn. com-nding officer.

nanding officer.

At Headquarters Company, H&SBn., Lapt Ernest H. Graham, Recruit Training Regiment Scheduling Officer, has aken over as Commanding Officer, reving Capt. Harold H. Hutter, jr., who eparted for the Third Marine Division.

W II Marine History Comes Off The Press

The first volume of a projected five-olume series entitled History of U.S. arine Corps Operations in World War has been published by the Historical ranch, G-3, of Marine Corps Headarters

Co-authored by the late Lt. Col. Frank Hough, Maj. Verle E. Ludwig, and Mr. Jenry I. Shaw, jr., the initial book, is theled Pearl Harbor to Guadalcanal.

Copies are available at \$5 each through be Superintendent of Documents, Gov-mment Printing Office, Washington 25,

lavy Develops Rocket Seat Ejection System

A new rocket ejection seat for Navy and Marine Corps pilots is being developed and tested at the Naval Ordnance lest Station, China Lake, Calif.

Known as RAPEC (Rocket-Assisted resonnel Ejection Catapult), the new system works in two phases.

First, gases from a small rocket proellant blow the pilot's seat out of the lane's cockpit. Almost simultaneously, second rocket charge ignites and pro-

second rocket charge ignites and pro-second rocket charge ignites and pro-ts the seat to the pre-set altitude here the seat disengages from the pilot. the the pilot's parachute lowers him to

In preliminary static tests, a dummy as successfully catapulted 225 feet into as successfully catapulted 225 feet had all air and parachuted back to earth, he system is designed to operate at found level or at high altitudes.

larine Corps Grants Extended Tours To 7

Marine Corps Headquarters has ex-Marine Corps Headquarters has ex-nded the active duty tours of seven eservists, including Maj. John P. homas who will serve until 30 June 69, and Capt. Albert J. Kohanowich those tour runs through June 1960. The names and final tour dates for first eutenants are:

June 1959—Albert A. Cantello.
Jan. 1969—David K. Varner.
Peb. 1969—Alphonse I. Warczakowski and
layton P. Brennan.
Jan. 1961—Victor W. Chartrand.

ol. Benson Commands AAA

Col. Francis W. Benson, Commanding Macr, 9th Marine Regiment, Third Mahe Division, has assumed command of 2d AAA Group, MCB 29 Palms. Calif.

an 800-foot landing field in forward com-bat areas within from three to five days. Project officials at Beaufort state that such a system would constitute an "un-sinkable aircraft carrier capable of landing, re-fueling, re-arming and launching an entire fighter squadron."

YOU DON'T HAVE TO CRATE IT-WHEN YOU AIR FREIGHT

You can eliminate those expensive crating costs when your shipments go via Scheduled Airlines Air Freight ... because the smooth flight does away with the bumping, jarring and swaying of old-fashioned surface shipping. There's less damage and pilferage, too!

Speeding your shipments via Scheduled Airlines Air Freight reduces your storage and insurance costs. Saves you days...sometimes weeks...in shipping time. Just ONE government bill of lading is required over the routes of as many airlines as needed ... whether the destination is nation-

wide or worldwide! And Scheduled Airlines Air Freight frequently costs you LESS than slow surface shipping methods.

For Example: A 200 lb. shipment of aircraft parts from Knoxville, Tenn., to New York City-By the fastest surface shipping \$17.66 By SCHEDULED AIRLINES AIR FREIGHT . \$16.60

(Pick-up and delivery included in each case.)

For full information, call the Scheduled Airlines serving your part of the country.

Draper, David H

Haycraft, R G Smith, G B, Jr Hawkins, W R Thompson, J M Chesney, M A Smith, Daniel L 30 Webster, John G Thomas, Martin A Balyeat, Ray M Jackson, C B, jr

Ward, Julian E Haynes, Herbert C Johnson, H H, jr Johnson, H H, jr Catlin, R, jr Moak, Glen D 40 Peniston, W H Crow, Neil E Vannunes, E H Brogdon, Bryon G Cooner, William H Ord, John W

porary major from among 72 eligi-bles. The senior officer selected. Conrad J. Gaffney, whose prom-tion was made effective 22 Decem-ber, holds rank as a captain from

17 July 1950.

CHOOSE 6 CHAPLAINS Six Air Force Chaplains have been chosen for promotion to tem

17 July 1950.

The No. 2 and No. 3 selections, John E. Prokopovitsh and Robert B. Adams, with '51 dates of rank, will be advanced on 30 January and 12 February, respectively.

Rank as major will go to Chaplain Raymond E. Tinsley, who ranks as a captain from 1 April '32, on 1 April, On 20 April, Chaplains Hugo G. Schmidt, jr., and George S. Bieber, who have identical dates of rank of 1 April '53, will receive their gold leaves.

Gen. Rawlings Tells AMC Changes

CHANGES effective 1 February, involving four Air Materiel Command generals, three of them in the Dayton area, have been announced by General E. W. Rawlings, AMC Commander.

Maj. Gen. Paul E. Ruestow, Director of Personnel and Support Operations at AMC Headquarters, since December 1955, will become Commander, Middletown,

General Ruestow will replace Maj. Gen. George R. Acheson, who will retire 31 January with 33 years' service.

Brig. Gen. Donald L. Hardy, AMC, Inspector General, and a former Wright-Patterson AFB Commander, will replace General Ruestow. The successor to General Hardy has not been announced.

Brig. Gen. Charles E. Jung, Deputy Commander of Oklahoma City Air Materiel Area since April 1956, who received his temporary general officer appointment 7 November, will become Commander, Dayton Air Force Depot.

Reassignment of Col. A. A. Denton, interim Commander of Dayton Air Force Depot for several months, will be announced later,

Col. Adam K. Breckenridge, Chief of Plans and Programs at Mobile Air Materiel Area, will replace General Jung.

Leave Ogden AMA

Two colonels of Ogden Air Materiel Area supply and services directorate will leave Hill AFB, Utah, for new as-

Col. Raymond D. Swett, Supply and Services Director, departs in March for

USAFE Headquarters at Wiesbaden, Germany, to be Director of Supply and

Services.
Col. Harry A. Lange, Colonel Swett's deputy, goes to the San Bernardino, Calif., Air Materiel Area to be Chief of Missile Commodity Division of the Logistic Support Management Directorate.

Six '53 Veterinary Captains Make Major

Six Air Force Veterinary Corps of tains, all of whom hold dates of m '53, have been chosen for advan

ment to temporary major.

The senior officer in the group, Jam.

H. McNamara, will be advanced 17 Apr.

with the other five, Leslie J. Seigner
John D. Mosely, William H. Watson, in
Donlad W. Ringley, and Elmer L. Lashu to receive their majorities on 30 April

The last man on the list, Capta Lashua, holds rank from 21 October 3

Two Medical Specialists Are Chosen For Major

Two Air Force Medical Specialist a tains, Elsie L. Deming, with date of m from 15 December 1951, and Mary Fesenmyer, whose date of rank is m 6 November 1952, have been chosen in

promotion to temporary major.
Captain Deming will be promoted
March, and Captain Fesnemyer on

Wyoming ADC Station Gets Nuclear Power Plant

The Air Force has chosen Sundance AFS, Wyo., as the site for the installation and test of a factory-assembled, modular nuclear power plant for use in remote military installations. The Sundance Station, a new Air Defense Command Aircraft Control and Warning (AC&W) site, has been authorized for construction to begin in 1959.

The Atomic Energy Commission and the Air Force invited proposals in Oc-tober for design, development, fabrica-tion, installation and test operations of the plant.

This factory-assembled modular nuc-This factory-assembled modular nuclear power plant will have a pressurized water reactor, cooled and moderated by light water, and fueled with enriched uranium. It will produce 1,000 kilowatts of electricity and approximately seven million BTU/HR of heat for use at the Sundance installation. The plant will test the advanced technology of providing factory assembled modules or units. ing factory-assembled modules, or units, which can be air-transported to a site and rapidly erected.

Emphasis will also be placed on the quality and reliability of the plant's output, ease of operation and maintenance, and the maximum relocation capability.

Once-Cancelled Atlas Dramatizes Danger Of Cuts

In this era of cut-backs in funds for defense, the enthusiasm over the great achievement of the Atlas satellite should be tempered with the hope that this accomplishment will serve to stimulate the interest of the Administration and Congress in strengthening the defense forces, rather than foster a feeling of complacency.

One has only to look at the history of the Atlas missile to realize the dangers of cut-backs in programs of weapon development. The first research and development contracts for the "Beast" date to 1946. Then came a wave of economy in defense, and in 1947 the Defense Department cancelled the program. It was not until Communist aggression was so clearly demonstrated in Korea that the purse strings were loosened and expenditures again allowed for Atlas development. Had the Convair Division of General Dynamics Corporation not kept some of the work going with its own money, much more time would have been lost. Nevertheless, there is no doubt but that if the work had been kept underway throughout the years, the United States would have been substantially ahead of Russia in this field and would not have suffered the humiliation of seeing Sputniks circling the earth before we were able to put up even a small satellite.

The success of the Atlas, then, shows what we could have done some time ago had it not been for cut-backs. The astounding performance of the rocket engines developed and produced by the Rocketdyne Division of North American Aviation, Inc., demonstrates that we are abreast of, if not ahead, of the Russians in this vital field. Furthermore, Rocketdyne is now at work on a development contract, under the National Aeronautics and Space Administration, looking toward a million to a millionand-a-half pound thrust engine.

Increasing the Air Force's sense of pride at the achievement of its missile must be the knowledge that the Convair Astronautics Division which brought the Atlas to its present state is headed by a former officer of the Regular Air Force, James R. Dempsey.

With this achievement chalked up, missile proponents are deeply concerned over the wave of cutbacks in the over-all program. The Rascal, air-to-surface missile, produced by the Bell Aircraft Company, has fallen by the wayside, as has the promising ground-launched Goose decoy missile, manufactured by the Fairchild Engine & Airplane Corp. Now comes word that Chance Vought's notably successful 1400-mile-per-hour 1,200-mile range Regulus II has been scratched just on the eve of being made operational by the Navy.

One cannot believe that these cut-backs are dictated by policies based on national defense requirements. In fact, in the case of the Regulus, the Navy made it evident that it agreed to the cutback with "extreme reluctance" and only because of a shortage of funds.

These blows at the missile programs coupled with the reduction in the Army's manpower and the closing of Army posts and Navy installations make clear the serious impact purely monetary considerations are having upon the nation's ability to defend itself.

That is why we say the success of the Atlas should serve as an incentive to do better by the defense forces rather than make us contented with what we have achieved.

Will The New Congress Treat Retired Fairly?

The thousands of retired members of the Armed Forces and, indeed, all persons on active duty, will be watching anxiously to see what the 86th Congress does to remove the gross discrimination now in effect against those who have given the Nation a lifetime of service. The question will be whether or not economy pressures thwart efforts to obtain justice for our senior Service citizens.

Specifically, legislation was introduced just prior to the adjournment of the last Congress which would make the Military Pay Act of 1958 applicable to Service retired across-the-board, no matter whether they left active duty before or after the 1 June effective date of the new

law. As it stands now, there has been a violent offense against history military pay policies insofar as the principle of equal pay for equal ray has been abandoned.

It can only be hoped that those Members of Congress who have expressed concern over this injustice will persevere in the face of the certain opposition from the Bureau of the Budget. Though their position will be a difficult one, the Services have a right to expect that the civilian and military leaders of the Army, Navy, Air Force, Marine Corps, and Coast Guard will speak out on Capitol Hill regarding the need for medial legislation.

Aside from the pay inequity, Service retired will look to the new Congress for passage of legislation that would liberalize the dual employment and dual compensation statutes, some of which date to the 19th Century. In the past, the Administration has expressed support action that would permit the Government to utilize the talents of many retired Service people who are now barred from Federal employment by outdated laws.

As the "Spokesman of the Services," THE JOURNAL pledges to a military men and their families our ceaseless efforts to gain increase support for vital retired legislation during the 1959 session of Congress

READERS' VIEWS

Replies To Non-Annointed

■ This letter is addressed to "Non-Annointed and Associates" (THE JOURNAL, 18 October) who alleged favoritism in the Navy to USNA graduates which could easily be accepted as fact by many young Reserve officers who are weighing transferring to career status.

Failure of selection to Captain (or Colonel) is the severest fate that can happen to an officer. Anyone who sweated out the recent selections can appreciate the disappointment of those who did not make it, be they USNA or ex-Reserve.

That is no excuse, however, to take out personal disappointments with childish reflections on the Navy and Naval Academy graduates.

Anyone who purports to be a career officer must be aware of the fact that promotions are controlled by the inevitable law of supply and demand. There are many clear explanations as to why we have a "hump" problem in the officer corps of the Navy. Any solution, short of another war, will require severe attrition.

The fiscal '59 selections to Captain represent the Navy's first attempt to solve its promotion problems. From a selection percentage of 75% in 1957 and 65% in 1958 it was necessary to drop the percentage to 45%. Numbers-wise this meant that some 300 officers in the fiscal '59 zone were passed over. However, retention of the 75% policy would have taken two years to consider the same number of officers, and would have meant that officers in year groups '45 and '46 would be coming up for selection after 28 or 29 years' service. For a modern Navy that is obviously unacceptable.

On a percentage basis it appears that

IN THE JOURNAL

10 Years Ago—United States aeronautical experts now have the knowhow to reach speeds approximating 2,000 miles per hour. This is the observation of Lawrence D. Bell, President of Bell Aircraft Corp., whose firm produced the X-1, first plane to fly faster than sound.

50 Years Ago—A plea is made for Jewish chaplains for the Army and Navy by the Federation of Jewish Organizations, which has appointed a committee to bring the matter to the attention of Congress.

95 Years Ago—Guerrilla bands continue to swarm in the interior of West Tennessee, plundering, maltreating or conscripting all on whom they can lay hands. The Union commander at Memphis has been energetically engaged in mounting infantry for the purpose of destroying these bands.

USNA graduates in the fiscal '59 selstion (year groups 1940 and 1941) fan better than ex-Reserves. This is that it does not automatically folio that it was caused by favoritism of his Air Force or Army contemporaris about the current opportunity for motion of integrated or reserve office in those services he would not so gill establish a "historical" fact that it Navy is the most reluctant Service assimilate non-academy officers.

The fact remains that a higher presentage of USNA graduates, as a ground must have had superior records the their ex-Reserve contemporaries, as group. Even "non-annointed" conceithat the selection board probably a its job fairly and impartially. The vilicity of his insinuations rests squarely the question of whether or not it is local to expect this group of USNA graduates to develop more superior record than the group of their ex-Reserve on temporaries.

It is necessary to clearly establish the fact that the officers under discussion are pre-war procurement. Most of the problems in catching up career-wind with their USNA contemporaries are from problems generated by WWII as should not cloud the picture in NROTC and other post-war program that start young officers out on a most equal footing.

For promotion purposes an officer only what his record shows him to the size of the Navy precludes the troduction of individual judgment has on personal knowledge on the particular selection board members. Officer is assigned to more responsible position the basis of their performance a demonstrated capabilities in previous continuity. Outstanding officers, such as Cutain Wilkinson of the Nautilus (and Reserve), become outstanding by the tinually preparing themselves for a actively seeking increased responsibilities.

In comparing a group of officer, ip place to start is at the beginning I USNA classes of 1940 and 1941 we the product of the pre-war Acade which was hard to get in and equinard to stay in. These classes grated only about 65% of the originentrants. They all went to combatiships in the Fleet with the best poble technical education in all Navalejects, a partial indoctrination in acceptance of responsibility and an justment to the realities of a serio career. As a group they undoubted had a tremendous initial advantage of any Reserve contemporaries.

Where this group, which lost 4% its remaining numbers in the step Captain, is fairly homogeneous a origin and opportunity, the same not be said for their ex-Reserve temporaries who came from differ specialized training programs, different educational backgrounds and

From first page—
Survivor Benefits program and the family Medical Care Act.
Only 15 proposals in the '59 legislative package have been tagged with 'priority' labels. Of this group, only a handful will add appreciably to military spending. Only six of the 15 "priority" bills will have any major impact on military families.

tary spending. Only six of the 15 "priority" bills will have any major impact on military families.

These six, in which the Services will be most interested, include the "White Charger" career officer management plan; the Reserve Officer term retention contract plan; the annual military construction program embracing family, bachelor officer, and enlisted quarters; an omnibus measure amending the Uniform Code of Military Justice; an extension of special pay for medical personnel, and a proposal to erase "floors" which the Congress has placed on the Army National Guard and Reserve.

The last of the six faces little prospect of enactment in view of the strong sentiment which the Congress expressed when it prescribed the minimum strengths last August. The new proposal asking for repeal of the appropriations act "floors" will go to the Armed Services Committees in the House and Senate, but can expect a cold reception.

Costliest Bills

The two most expensive personnel proposals on the priority list will be the "White Charger" plan and the term-retention contract plan for Re-

servists.

The former provides for accelerated retirement and consequent accelerated promotion of large numbers of officers, thereby boosting the retirement payroll costs by several million dollars. Although no firm estimate of the total cost for all Services has been disclosed, it is known that the proposal, as originally drafted, adds about \$29 million to the Air Force budget, alone, for the first five years. first five years,

The term-retention plan, providing increased lump-sum readjustment payments for Reservists who are forced off active duty, and establishing improved tenure for those retained on active duty, would cost about \$22.5 million for the first year under House Armed Servies Committee, recommendations. The ices Committee recommendations. The cost of the new Pentagon re-draft of the measure has not been revealed.

Some other expensive military legis-lation not included in the package

sponsored by the Department of Defense will be introduced independently, however, by members of the House and Senate. Included are two major proposals affecting retired families. One will be designed to give all retired members of the Armed Forces the full benefits of the 1958 Military Pay Act. The other will propose a change in the Survivor Benefits Act to extend death benefits to the families of all careerists who completed at least 25 or 30 years' benefits to the families of all careerists who completed at least 25 or 30 years' service prior to retirement. Both items will cost millions of dollars if enacted. In view of the President's avowed program to trim expenses, Pentagon sources say it is unlikely that either measure will win Defense Department

The remainder of the Department's

serve Forces and provisions for a family separation allowance for personnel whose dependents do not reside at permanent duty stations.

Also on the non-priority list are measalso on the non-priority list are measures which provide a personnel administration system for dependent schools overseas, WAAC service credit for longevity and retirement, continuation of the expiring Dependents Assistance Act, extension of the 6-month Reserve training program and a uniform rations plan for all Services (initially estimated to cost about \$25 million).

Amend USCOA

Two other measures in the non-priority group are bills to amend the Uniformed Services Contingency Option

49TH STATERS — Recent Guests of the Commander in Chief, Alaska,

mander in Chief, Alaska, Lt. Gen. Frank A. Arm-strong, Jr., USAF, (left) were Alaska's Governor-elect William A. Egan and State Representa-tive-elect Russell Meek-ins. The two officials were briefed regarding military activities with.

military activities with-in the 49th State during their visit to Alaskan Command Headquarters at Elmendorf AFB.

kept under wraps until presented to the Congress, but the term-retention con-tract changes were revealed shortly before Christmas by the Reserve Offi-Term Contract Details

The ROA, which said it has had "numerous conferences" on the subject with key Pentagon personnel, disclosed that the plan as it will go back to Congress in January makes these provi-

Mandatory contracts for all Reserve officers after their first two years'

Two months' basic pay for each year of contract service upon completion of contract, regardless of renewal.

Two months' basic pay for each year served, plus one month's basic pay and allowances for each year of uncompleted contract upon involuntary release to inactive duty.

As a transitional step, two months' basic pay for each year of service beyond the 10-year mark for those involuntarily separated.

when the 10-year mark for those involuntarily separated.

■ Assurance that, after completion of 14 years' commissioned service, Reservists will either be (1) given a Regular commission, (2) a six-year Reserve contract, or (3) separated with two years' hericage.

years' basic pay.

ROA said the "full force" of its "political guns will go all-out in support of this legislation once it hits Capitol Hill."

Many of the proposals are slated for early transmission to the Capitol and will be reported in greater detail in future issues of THE JOURNAL.

NAVY TO ARMY. Admiral Harry D. Felt, Commander-in-Chief, Pacific, is greeted upon his arrival at the Army War College, Carlisie Barracks, Pa., by Brig. Gen, Edgar C. Doleman, Deputy Commandant. Admiral Felt discussed strategy in the Far East-Pacific areas in a lecture to faculty and students of the College.

15 "priority" proposals have little significance for most military families. Of major interest are measures to extend the draft until 1 July 1963, and to ex-tend the law authorizing GI-type home loans for active duty members of the Armed Forces to 1 July 1960.

"Hump Bill" Interest

The 58 items on the Pentagon's nonpriority list, however, include a number
of measures which the Services will be
watching with great interest.

In this group are the Navy-Marine
Corps "hump" bill, a career program
for Marine Corps officer-lawyers, revised dual-employment and dual-compensation rules, omnibus legislation for
the Service Academies, new active duty
requirements for members of the Re-

Act dealing with survivor benefits, and an omnibus measure amending the Re-serve Officer Personnel Act.

Of the priority list items, "White Charger" and the term-retention con-Charger" and the term-retention contract plan, in addition to being the most costly, also will hold the greatest interest for a majority of military families, affecting, as they do, tenure, promotion, retirement and readjustment

pay.

Since August, Pentagon task forces have been hard at work on both proposals, re-drafting them to better meet Congressional criticism raised during the 85th Congress.

Few details of the "White Charger" revisions have seeped out of the Pentagon as a result of Defense Department General Counsel Robert Dechert's in-

groups. They started their active duty as Reserve officers at different times and were assigned where they were needed, most without regard to future careers. Many will admit that they entered on active duty with the purpose of getting the war won and returning to civil life.

As a group the Reserves who augmented into the regular Navy after the war started off with initial career disadvantages but the lack of the "old school tie" was not one of them. The 166 ex-Reserves who were selected for Captain over 182 USNA graduates who had a rupping start is a tribute to their had a running start is a tribute to their hard work and ability and the fairness of the Navy's selection system.

The Navy promotion system is not claimed to be perfect. No personnel system can be. But when the chips are down before a selection board each officer's record is what he has made it. It reflects his abilities and performance as judged by many reporting seniors. It must be carefully evaluated and weighed against the records of other officers. Within the numbers that can be promoted only those "best fitted" are selected.

The selection or failure of USNA and ex-Reserve officers whom he knows re-flects an honest judgment of individual

The Navy faces a severe problem in its promotions. Many individuals are going to get hurt. But we cannot run our officer corps like a glorified Civil

Service. Our problems must be solved within the Navy by sound military judgment. Unsubstantiated and public allegations of favoritism won't change the basic numerical facts of the "hump" problem nor the fact that the Navy must and will select its officers on an individual and "best fitted" basis regardless of source of entry. If the Naval Academy graduate is the type of officer that the ex-Reserve officer must measure up to or surpass, so be it, but let us not cloud the issue by claiming that favoritism enters into it.

L. C. SAVAGE COMMANDER, USN

Retired Pay

In all of your articles regarding Senate Bill 4207 (85th Congress), you talk of equal benefits for all retired personnel, no matter the date on which

personnel, no matter the date on which they left active duty.

I believe that I am correct and it should be so stated in the news articles regarding same, that it would benefit only persons who on 31 May 1958 were receiving retired pay under the Career Compensation Act of 1949. The pay of officers who were retired because of disability prior to October 1949 and who elected to continue receiving pay under elected to continue receiving pay under the 1942 Pay Act would not be changed by the proposed legislation. These offi-cers, who were retired because of dis-ability during and after World War II,

would have taken a decided cut in their retired pay if figured under the new schedule of the Career Compensation Act of 1949, hence continued under the old pay schedule, with only a 6% in-

Service personnel whose military career is terminated by line of duty dis-ability should be paid 75% of basic pay for his rank and years of service. RETIRED AUS OFFICER

- UNLESS THE PENTAGON ASKS CONGRESS for supplemental defense funds for the current fiscal year, all of the Services will be forced to curtail a variety of activities during the period 1 January-30 June. Political chiefs will try to keep this situation under cover, but the facts are that "maintenance and operations" expenditures during the first six months of fiscal '59 have exceeded considerably one half of the total year's authorization.
- RISING COSTS HAVE COMBINED with the unforeseen budget dislocations required by deployments to Lebanon and Formosa to knock Service spending plans askew. What will happen in the next six months, unless supplemental funds are obtained, is that flying hours, steaming time, and combat training will need to be held below the levels of the first six months. Numerous research and development projects also will need to be kept under tight reins.
- THOUSANDS OF SERVICE FAMILIES will be forced by factors beyond their control to sustain heavy financial losses as a result of deactivations of Service installations. First, of course, there is the extra expense involved in any move.
- BUT EVEN MORE IMPORTANT is the fact that large numbers of Service folk, confronted with a lack of Government quarters, have been required to buy housing at top prices in remote communities where real estate value has become dependent on the presence of the military. With no alternative but to sell in a "distress" situation, these Service families have as their 1958 Christmas present the prospect of heavy assaults on domestic budgets.
- ANOTHER ADVERSE IMPACT on Service morale as a result of the yearend rush of deactivations will be the reduced availability of medical care for families and retired personnel. This comes on the heels of the 1 October curtailment of medical care authorized from civilian physicians and hospitals.
- ONE REASON THE PENTAGON MOVED during the last days of 1958 to announce deactivation plans was the hope that this tactic would result in less vocal Congressional criticism than would be the case after the new session convenes. It is certain, of course, that there will be strong protests from individual Senators and Representatives about specific closings, but these protests will come after the announcements are a fait accompli.
- THE DEACTIVATIONS will make it more difficult for the Services to win support for new Capehart housing projects. When an installation like Ft. Polk, La., is ordered to be shut down, Congressmen will be hesitant to endorse construction of quarters at other bases, which have been described in the past as "permanent" facilities.
- THE CLOSINGS ALREADY ANNOUNCED and the prospect of additional deactivation announcements provide an emphatic tip-off that the fiscal '60 budget will call for further reductions in military manpower. Whether new personnel cuts can be achieved without "RIF" action remains to be seen.
- THERE WILL BE NO WAITING in the new Congress until the fiscal '60 budget hearings are begun for detailed testimony by Service Chiefs on manpower cuts. Chairman Russell (D-Ga.) plans to call the JCS members before his Senate Armed Services Committee to obtain their views on plans for reduction in military personnel. These hearings, of course, will not be restricted to manpower problems. Once a group like the Senate Armed Services Committee has a JCS member before it, the subjects of the interrogation range far and wide.
- THE PENTAGON'S PENNY-PINCHING PLANS for "career attractiveness" legislation during the '59 session of Congress (see Page 1) perils chances for enactment of legislation which would provide longevity pay credit for hundreds of Service Academy and ROTC graduates. In the past, the Administration officially endorsed this proposal, then decided to delay fighting for it pending action on the Cordiner Plan. It has been estimated that Academy and ROTC graduates lose about \$10,000 over a full career, compared with the longevity credit given other officers.
- SUBMARINER INFANTRYMAN is the dual qualification of 2d Lt. Benjamin E. Lister, now a student at Ft. Benning, Ga. He served for four years as a diesel mechanic on the submarine USS Seadog from 1949-53 before joining the Army Reserve.
- TRAVEL ABROAD BY MEMBERS OF CONGRESS last year hit a new high—at least as far as spending money is concerned. The House Administration and Senate Appropriations Committees report that a total of \$488,285.07 was spent in FY '58 in Counterpart Funds by traveling Congressmen. Biggest spender was the investigating House Government Operations Committee which used up \$62,093.08 in 23 currencies around the world. Biggest spending Senate Committee was Foreign Relations which used up \$44,714.06 in 44 different currencies. This travel should have given many of the members a good idea of what the Armed Services are doing abroad.

- THE AMERICAN BAR ASSOCIATION will make a new try on Capitol Hill to gain approval of incentive pay for military lawyers. The legal group has envied the success of the American Medical Association and the American Dental Association in gaining extra pay for military physicians and dentists. The Bar Association was placated to a degree during 1958 with the action, initiated in the Senate Armed Services Committee, which authorizes responsibility pay for officers. However, this authority is not being implemented. In view of the fact that the legislation which provides for medical and dental incentive pay must be renewed in 1959, the Bar Association will use this opportunity to press its case anew. As in past years, the Pentagon will oppose extra pay for lawyers.
- THE OFFICIAL ARMY ANNOUNCEMENT concerning plans for a new reorganization of the Pentomic divisions (see page 3) was significant in that it omitted any reference to specific numbers of divisions. It is obvious that a firm decision has not yet been made on the number of divisions to be retained on the active rolls during fiscal year 1960. As was reported in last week's issue of The Journal, the Army may be forced to drop one of its divisions because of manpower cuts. At present, there are nine infantry, three airborne and three armored divisions—a total of 15. The President's budget for this fiscal year, which was submitted last January, envisioned an Army of 14 divisions.
- ALL THE AIRCRAFT which set official FAI records in the U. S. during 1958 (see page 23) were built by Armed Forces manufacturers. Even the record for light-weight aircraft straight-line distance without refueling was set by a Beech J-35 Bonanza, which flew 6,856.32 miles from Manila to Pendleton, Ore. Beech builds the L-23 for the Army, while other Beechcraft are in the flying inventory of the Air Force and the Navy. Incidentally, the distance record set by the little single-engine Beech Bonanza is all the more remarkable when compared with the 10,299.3 mile record set by the KC-135 tanker which, is powered by four jet engines.
- NEED FOR BETTER R&D CONTRACT procedures with industry (see page 30 The Journal, 13 Dec.) is pointed up in the annual report of General Orval R. Cook, USAF-Ret., president of the Aircraft Industries Association. The increasing trend toward R&D contracts will "seriously affect the rates of earnings with the aircraft industry," he says, because the fees that industry has received for these contracts are low while "procurement procedures seriously affect the earnings."
- THE STRATEGIC ARMY CORPS will score a "first" in the Army-Air Force "Exercise Banyan Tree" to be held 15-18 Feb. in Panama. For the first time in an exercise or actual operation, an Airborne Battle Group, in this case a reinforced ABG from the 82d Airborne Division, Ft. Bragg, N. C., equipped with Honest John rockets, will be flown directly from the U. S. to an overseas area to execute a parachute assault.
- MORE THAN 5,000 SOLDIERS and 140 aircraft of the Tactical Air Command, will participate in the Exercise, which will be highlighted by the marshalling of the STRAC ABG and TAC C-130 and C-123 aircraft at Pope AFB, N. C., and the air deployment to the overseas drop zone at Rio Hato in Panama.
- ALL THE SERVICES are taking new looks at their ROTC programs, which were turning out more graduates than required for active duty tours, even before the new cutbacks in military strength. The Army, for example, in the next year will be able to use for full two-year tours only about half of its ROTC output. Chances are at least 50-50 that the ROTC program will be reduced, although such a proposal is certain to encounter stiff resistance from many university presidents.
- MARINES WITH SKIN BLEMISHES could find themselves barred from promotion. A newly issued USMC Bulletin on promotions to E-8 and E-9 contains a sample Interview Board Appraisal Sheet, to be used as a guideline for officers considering Leathernecks for the top EM ranks. The Appraisal Sheet tells the officers to consider the applicant's "looks, bearing, body movements, complexion and facial skin conditions, hair grooming, cleanliness of face, teeth, hands, and fingernails, and clothes. The Appraisal Sheet adds that a Marine possessed of "smooth and graceful body movement" has a better chance than an NCO who simply "carries himself well."
- THE ARMY IS WONDERING how long it is going to take before the reorganization of its civilian secretariat is completed. The Defense Reorganization of 1958 required that the Army drop one Assistant Secretary of Defense. As an expediency, it was decided that Assistant Secretary Hugh M. Milton, who had been in charge of Manpower, Personnel and Reserve Forces would retain this responsibility after moving up to become Under Secretary. There's no question that Reserve Major General Milton is a Pentagon authority on manpower problems, but the Army questions whether its manpower problems, especially in these critical times, should be handled on a "part time" basis.
- FIFTY YEARS OF MILITARY SERVICE were completed 18 December by M/Sgt Horst W. Tittel at Lackland AFB, Tex. He enlisted 18 Dec. 1908 at Ft. Slocum, N. Y. Sergeant Tittel, the oldest man on the military active list, said this week he has no plans for retirement.

M/G Curtis Is General Chairman World Flight

Maj. Gen. Edward P. Curtis, USAFR, winner of the Collier Trophy for the most outstanding aviation achievement of the past year, will serve as General Chairman of the first World Congress of Flight, the Air Force Association, spon-

sor of the event, announces.

The World Congress of Flight will be held 12-19 April in Las Vegas, Nevada. It will bring together all elements of aeronautics and astronautics in the first international event of its kind held in this country. It will combine conferences and forums, outdoor and indoor displays of latest aircraft and related equipment, air and ground demonstrations, and private meetings of national and interna-tional aerospace organizations.

Redstone TV Teaches Missile Lessons At Knox

The Army is teaching officers the basics of guided missile maintenance over a Radio Corporation of America closed circuit television system that may be extended eventually to installations across the nation.

Nerve center of the military educa-tional TV hookup is the Ordnance Guided Missile School, at Redstone Arsenal. Ala

Missile instruction programs are being carried over the closed TV circuit to the Army's Armor School at Ft. Knox, Ky., 280 miles to the north, for large screen TV viewing in 36 classrooms,

Army authorities have indicated the TV instruction network may be expanded gradually to encompass centers in as many as 46 states.

Association, organized in 1922, Is a non-profit insurance association managed end directed by active and retired afficers of the U.S. Armed Forces.

Eligibility is aimed of officers, a preferred risk group. Over 300,000 members of USAA now enjoy liberal savings on insurance. To save costs, selling is by mail. Write today for details.

Brig. Gen. Page Cites ATC Accident Drop

The Air Training Command's special responsibility for maintaining a high degree of flight safety was emphasized by Brig. Gen. Jerry D. Page, USAF, ATC Deputy Chief of Staff, before a recent meeting of the Institute of Aeronautical Sciences at Randolph AFB, Tex.

General Page noted that the majority of ATC flights, which account for 28% of the Air Force total, are accomplished by student pilots with little or no flying

Significant accident reductions have been achieved by painting ATC planes with a bright fluorescent orange paint and by adoption of improved navigational lights. The fluorescent paint, he said, had helped reduce the mid-air collision rate of ATC planes to 75% lower than previous

SERVICE FAMILY NOTES

Family Editor Louise B. McGiffert

Associate Family Editor Bertie Johnson

DISTINGUISHED GUESTS at the recent formal dinner dance sponsored by the Fourth Army Headquarters Woman's Club at Ft. Sam Houston, Tex., were, standing left to right: Brig. Gen. John C. Hayden; Lt. Gen. Guy S. Meloy, jr., Fourth Army Commander; and Maj. Gen. Lewis S. Griffing. Seated are Mrs. Griffing, left, and Mrs. Hayden.

All-Time Record Donation Collected At Ft. Lewis; People Of Service Busy At Many Bases

The 1958 United Good Neighbor campaign has closed at Ft. Lewis, Wash. with an all-time record donation. Brig. Gen. John H. McGee, Assistant 4th Infantry Division commander, presented checks to the UGN totalling \$71,000.

The figure was 109.5 per cent of Lewis' quota, the highest percentage donation of any group participating in the drive.
McChord AFB was a close second at 109 per cent.

Ft. Benning, Ga.-Approximately 1,000 Christmas toys were distributed by the Operations Office's Supply Section of the Infantry School to needy children.

Dyess AFB, Tex .- A local record number of 204 women recently completed the Family Services orientation course here, greatest number since last March when 135 were graduated. At the latest course, Mrs. Bernard Cole, Mrs. Edward Allard and Mrs. Orval Lybarger were cited as outstanding volunteers of the last calendar quarter.

Ft. Polk, La.-Thirteen Red Cross volunteer workers have been honored at a Staff Aide Capping Ceremony. They are Mesdames: Donald B. Gossage, Frank A. Pezzanite, Neal E. Hartman, Wayne G. Hagen, Eugene A. Horn, Harry W. Kirk-patrick, Lowell C. Mertz, Oscar K. Morris, C. E. Moore, B. F. O'Connell, John A. Santoro, Lawrence Scheftel and George W. Scott.

Inglewood, Calif.—Citing him for "inspired leadership," the Los Angeles Community Chest has presented a Special Leadership Award to Col. John B. Hudson, USAF, Deputy Commander, Resources, Air Force Ballistic Missile Division. He directed the efforts of some 20 USAF units in the greater Los Angeles area in support of the 1958 Community Chest drive.

Nineteen of the twenty Air Force units were declared "quota-busters." Each of these achieved 100 per cent of their quota. The overall Air Force contribu-tion to the Community Chest was a 300 cent increase over the preceding

Maj. John A. Webster, USAF, Colonel Hudson's "right hand man" on the Red Feather appeal, also was singled out for a Special Leadership Award. Major Webster is Assistant Executive Officer in the office of the Deputy Commander, Resources, at AFBMD.

The Christmas program of the Ft. Meade, Md., Officers' Wives Club was focused on aiding needy youngsters dur-

ing the holiday season, when members helped the children of the District of Columbia Training Center at Laurel, Md., to have a merry Christmas. For its Christmas welfare activity, the

For its Christmas welfare activity, the Club chose the teen-age group of the Training Center, which adjoins Ft. Meade. When it was learned that this age group, 430 in number, is often neglected, it contributed \$300 to buy a TV set and radios for cottages for their year-round pleasure. Mrs. H. M. Ludington, assisted by Mesdames R. A. Pillivant, S. A. Kretlow and E. R. White, was in charge of the welfare project, Members of the volunteer nursing group of the Club gave their services to assist at the Club gave their services to assist at the children's center.

Castle AFB, Calif.—Mrs. Howard Myers was the recipient of the Air Force Family Services' 1,000-hour volunteer service pin, which was presented to her at a Castle AFB Officers' Wives Club "brunch" at the Officers Club recently.

At the same time, 500-hour pins were presented to Mesdames Robert Anderson, Russell Bergh, John Ditto, George Kalebaugh and Robert Turner, and Service pins were presented to 107 other active members of the Castle chapter.

Beginning 1 January, new officers of the Family Services Program will be: Mesdames Lee Ulmstadt, Coordinator, Gerald Lane, Assistant Coordinator, and Robert Prior, Advisor. Just completing six month terms are: Mesdames Howard Myers, Coordinator; Willard Lucy, Ad-visor; and Donald Hedlund, Assistant

Armed Forces Hostess Assn. Aids Families

The Armed Forces Hostess Associa-tion, staffed by some 700 Service wives, is the only volunteer agency in the world today supplying information to Service personnel everywhere. From its office in Room 1A736, The Pentagon, the Association maintains comprehensive files on the aspects of family life overseas, as well as on a multitude of subjects per-taining to the local Washington area, such as housing, recommended baby-sitters, doctors, dentists, repair shops, women's organizations, shopping infor-mation, etc.

The Association has no financial backing, no dues and no drives for funds. A small volunteer staff of office workers, who take a two-day intensive training course and work one day every two weeks each, answers questions personally, by telephone or letter on subjects ranging from schools, camps, travel to "the electric cycle in Zanzibar." In ad-The Association has no financial backdition to these, 600 other wives gen. dition to these, 600 other wives generously donate their time in making personal calls on newly-arrived Service neighbors with offers of assistance and advice. It is these "Neighborhood Hostesses," who carry out the Association's basic purpose, that of friendly help to newcomers in the Washington area. newcomers in the Washington area.

For those writing to the Association for information pertaining to prospective duty stations, questions should be sent with stamped self-addressed enve-lopes. Branch of Service, ranks, grades or ratings, number in family with sex and ages of children indicated, are all helpful details for the staff member preparing replies.

The Armed Forces Hostess Association held a newcomer "coffee" 9 December at the Army-Navy Country Club, to which all wives of newly-arrived officers in the Washington area and their guests were

IN THE RECEIVING LINE at the Kelly AFB Officers' Wives Club annual tea were, left to right: Mesdames William Hezlep, John Kelly, Roger G. Kettleson, Robert Dubowsky, Thetus C. Odom, Gordon A. Blake, and Mrs. Thomas W. Lane, president of the club greeting Mrs. Charles E. Bayha. Special guests of the tea were honorary presidents and presidents of Officers' Wives Club from other military installations and the Military-Civilian Club of San Antonio.

Camp Wolters, Tex.—Mrs. Robert D. Hall is the new President of the NCO Wives Club. Other new officers are Mesdames Fred Daniels, Vice-President; N. N. Nikitin, Second Vice-President; Ben Byrd, Secretary, and A. Van Allman, Treasurer.

The new officers were installed at a Christmas party 18 December.

Mrs. R. E. Wilson is Outgoing Presi-

Fort Gordon, Ga.-Ten new Signal Ladies received a warm welcome to the Army's Signal Training Center at the Signal Ladies Newcomers' Hospitality Coffee at the Boardman Lake home of

Brig. Gen. and Mrs. David P. Gibbs.
The newcomers were Mrs. Ollie J. Allen, Mrs. Lawrence L. Wilson, Mrs. Vincent R. Eberhart, Mrs. James H. Carter, Mrs. James R. Hopkins, Mrs. Ivey M. Robertson, Mrs. James C. Dolan, Mrs. Jack E. Squier, Mrs. James D. Funderburg and Mrs. George A. Dewey.

Military Police Officers' Wives of the Washington area enjoyed a program of Christmas music presented by a trio from the Army Band, when they gathered for luncheon at Patton Hall, Ft. Myer, 11 December. Mrs. Carl Turner was hostess chairman, and was assisted by Mesdames James Mellow, Donald Carlotte Carlotte. Seanlen, James Schultz, Donald Lee, Walter Isreal and Donald Beyers.

Supply Corps Ball Draws Hundreds

Some 400 people danced to the music of the Navy Band when the Navy Supply Corps held its annual Christmas ball 12 December in the ballroom of the Army-Navy Country Club.
RAdm. and Mrs. James W. Boundy

headed the receiving line, which included RAdm, and Mrs. Leland P. Kimball, Capt. and Mrs. Marcus A. Peel, jr., and Capt.

and Mrs. Fowler Martin, the latter of whom was chairman of the ball.

whom was chairman of the ball.

Committees responsible for the success of the affair were: Announcements, Mrs. J. W. Paulser, Chairman and Mesdames J. H. Batchelder, G. V. Clark, K. C. Eckfield, J. W. Haskell, A. L. Hopwood, J. L. Howard, W. F. Mims, J. B. Warner, fr. K. A. Woolard, and S. F. Zimet; Programs, Mrs. R. B. Edwards, Chairman, and Mesdames J. J. Barton, K. M. Beyer, F. S. Bird, J. J. Caporaso, E. C. Chapman, fr., N. T. Hawkins, E. F. Hilderbrant, J. S. Huntington, M. J. B. Kahao, S. A. MacCaffray, H. G. Packard, and H. A. Stockenberg. Art work was done by Mrs. D. D. Dinsmore, Publicity by Mrs. J. M. Malloy, and refreshments were under D. D. Dinsmore, Publicity by Mrs. J. M. Malloy, and refreshments were under Mrs. R. J. Everett. The effective decorations headed by Mrs. W. J. Sheehan and Mrs. P. F. Wagner, who were assisted by Mesdames W. W. Coons, N. D. Chetlin, A. L. Frahler, J. W. Graham, G. C. Heffner, L. P. Kimball, jr., R. H. Northwood, W. R. Ormsbee, G. H. Roberts, J. J. Shea. P. L. Weintraub, and S. F. Zimet. The dismantling was handled by Mrs. J. T. Small and Mrs. W. W. Coons, who presented the large Christmas trees to the Salvation Army. Salvation Army.

Mrs. W. E. Frampton was in charge of reservations, and hostesses were Mesdames W. H. Schleef, K. R. Dye, H. L. Bland, R. W. Carter, C. R. Eagle, jr. A. L. Hopwood, C. S. Sharrocks, R. A. Jones, J. B. Kackley, J. J. Lynch, B. L. McCreery and R. H. Northwood.

CAPPED FOR SERVICE. Fourteen Fort Belvoir women became members of the CAPPED FOR SERVICE. Fourteen Fort Belvoir women became members of the Gray Lady Service, one of five groups composing the Fort Belvoir Auxiliary of the Fairfax County Chapter of American Red Cross, during a capping ceremony at the Main Chapel. They are, standing: Mrs. Bette Buchanan, Co-Chairman; Mrs. Betty Gray, Mrs. Eva Cohon, Mrs. Loretta Greene, Mrs. Joan MacHatton, Mrs. Esther Johnson, and Mrs. Margaret Rielly, Mrs. Jane Grum and Mrs. Gladys Knight, Co-Chairman. Sitting, Mrs. Majorie Lind, Mrs. Jeanne Wilson, Mrs. Margaret Mayo, Mrs. Dorothy Sunski, and Mrs. Bette Ann Male. CANON Luther D. Miller of the Wash-ington Cathedral, former Chief of Army Chaplains, performed the morning ceremony, 20 December, when

Miss Sarah Eliz-abeth Howard became the bride of Lt. Chadwick Charles Thomp-son, USA, at the son, USA, at the Post Chapel, Ft. Myer, Va. The bride is the daughter of Col. and Mrs. Charles E. N. Howard of 936 So. 26th St., Arlington, Va., and the bride-

and the bride-groom is the son of Mrs. Carl F. Steckel of Denver, Colo., and the late Mr. George Henry Thomp-

In the absence of her father, who is serving in Korea, the bride was given in marriage by her uncle, Capt. James H. Howard, USN. Her maid of honor was her sister, Miss Charlotte S. Howard, and her bridesmaids were Misses Marilyn Krohn, Dana Lee Dunn and Adrienne Scott. Lt. John T. Murchison of Ft. Meade, Md. was best man for the bridegroom, and ushering were Lts. Walter Garaty, Harold A. Smith, Robert E. Leard, Samuel W. Foeer, Carl E. Vuono and Ed K. Nakano.

Mrs. Thompson attended the College of William and Mary and the Washing-ton School for Secretaries. Her bride-groom is a graduate of the New Mexico Military Institute and the University of

Following a Colorado wedding trip, the couple will be at home at Ft. Meade, where Lieutenant Thompson is assigned to A Co., 1st Bn., 3d Armored Cavalry Regiment.

PANTER-BROWNING—In a late afternoon ceremony 17 December at St.
Philip's-in-the-Hills, Tucson, Ariz, Miss

Jacqueline
Whitelaw

Mrs. Panter

Browning, daughter of Maj. (USA-Ret) and Mrs. Samuel Roberts Browning of 4845 Calle Barril, Tucson, Barril, Tucson, became the bride became the bride
of Mr. Jack
Leroy Panter,
son of Mrs.
Claudius E.
Wayt of Colorado Springs.
The Reverend George Ferguson

officiated at the double ring service.

officiated at the double ring service.

The bride, who was given in marriage by her father, chose Miss Rosina Heirer as her maid of honor and only attendant, Mr. Robert V. Day of Greely, Colo., served as best man for the bridegroom, and ushers were Mr. Greg Mullins and Lt. Col. James F. McKinley.

Mrs. Panter, who received a B. A. degree from the University of Colorado in 1957, has been a stewardess with United Air Lines, based at Denver. Her bridegroom, also a graduate of the University of Colorado, where he was a member of the Sigma Phi Epsilon fraternity, ber of the Sigma Phi Epsilon fraternity, is an Assistant Bank Examiner with the Federal Deposit Insurance Corporation.

STEAKLEY-POLHEMUS - Mr. and Mrs. Everett B. Polhemus of Staten Island, N. Y., announce the engagement of their daughter, Betty Fischer, to Lt. John Wiley Steakley, USA, son of Mr. and Mrs. H. W. Steakley of San Marcos, Texas.

Miss Polhemus was graduated from Davis and Elkins College in West Vir-ginia. Her fiance, now stationed in Ger-many, is a 1955 graduate of the U. S. Military Academy.

NEVILLE-HAMILTON — Col. (MC, USA-Ret) and Mrs. G. Robert Hamilton of 521 Geneseo Rd., San Antonio, Tex., announce the marriage of their daughter, Sandra Jean, to Mr. Baird Markham Neville, son of Mr. and Mrs. Baird Neville of Midland, Texas. The wedding took place at the home of the bride's parents 21 December, with the Reverend James Joseph officiating.

The bride, who is a member of the Delta Gamma sorority, will graduate from the University of Texas in January. Her husband, who is currently at Newport, R. I., as a student in the Navy Officer Candidate School, is a graduate of the University of Texas, where he be-longed to the Kappa Alpha fraternity.

HIPP-POTTER—The Governor of the Canal Zone, Maj. Gen. and Mrs. William E. Potter announce the engagement of

their daughter, Jo Ann, to Mr. George Baker Hipp, son of Mr. and Mrs. George L. Hipp of Summit, N. J.
Miss Potter,

an alumna of Brownell Hall, Omaha, is now a junior student at Bucknell Uni-

at Bucknell University, where she is majoring in Biology. Mr. Hipp, who is a graduate of Bucknell University's School of Commerce and Finance, where he was a member of the Kappa Delta Rho fraternity, served as a liquid point in the Army Ho served as a lieutenant in the Army. He is now associated with the Singer Corporation in New York City.

PETERSON-REES-Lt, Col. and Mrs. David G. Rees of 6613 Pratt St., Omaha, Nebr., have announced the engagement

of their daugh-ter, Glenda Rhea, to Mr. Eugene Bruce Peterson, son of Mrs. V. C. Peterson of Marshall-town, Iowa. Miss Rees at-tended Drake

their daughter. Eleanor to Lt. Anne, Joseph to Lt. Joseph Thomas Palastra, jr., USA, son of Mr. and Mrs. Palastra, sr., of Kittery, Me., at the Post Chapel, Ft. Campbell 20 December. The noon double ring ceremony was performed by Chaplain Daniel F. Byone.

Mrs. Palastra

Given in marriage by her father, the bride was attended by her sister, Miss Roselyn Rich, as maid of honor, with Misses Judy Kimbrell, Terry Critz, Rita Kalis and Barbara Beasley as bridemaids, and little Miss Debra Honeycutt as flower girl. Lt. Manfred Lichtmann of Ft. Campbell, was best man and ushering were Capt. Weldon Honeycutt, Lts. Anthony Scibilia, Frank Hart, Milton Ewenus, Wilford Harrell and Robert Chant.

The bride attended William and Marv

The bride attended William and Mary College and her husband is a graduate of the U. S. Military Academy.

Upon their return from a honeymoon in the Great Smokey Mountains and in Maine, 5 January, the couple will be at home at 74-E Wherry, Ft. Campbell, where Lieutenant Palastra is assigned to the 101st Airborne.

RUSSO-ROSE — The Holy Trinity Catholic Chapel at West Point, N. Y., on the morning of 16 December provided the setting for the ceremony and Nuptial

Mass uniting in marriage Miss Paula Rose and Lt. Joseph Stephen Russo, with the Rt. Reverend Msgr. Joseph P. Moore Joseph P. Moore officiating. The bride 1s the daughter of Col. and Mrs. Buel Taylor Rose of Ft. Bliss, Tex., parents of the bridegroom are left.

Photo by T. Canales Mrs. Russo

bridegroom are Mr. and Mrs. Salvatore Russo of Dorchester, Mass.

Given in marriage by her father, the bride chose as her attendants her sister-in-law, Mrs. Buel Trenton Rose, as matron of honor, Miss Louise Fortier as maid of honor, and Misses Phyllis Starr and Meredith Kaplan as bridesmaids. Lt. B. T. Rose of Norfolk, Va., brother of the bride, served as best man for the bride-moon, and webers included Contr. Edwin groom, and ushers included Capts. Edwin L. Kennedy, Eugene Pfauth and Lt Gerry Longo.

Mrs. Russo attended Kansas and Fordham Universities, Her husband, a 1957 graduate of the U. S. Military Academy, is stationed at North Weymouth, Mass.

Choose Service Youngsters

Miss Claudene F. Overstreet, 15-year-Overstreet, has been selected to attend the 1959 National Senior Girl Scout

the 1959 National Senior Girl Scout Round-up at Colorado Springs next July. Captain Overstreet is Officer-in-Charge of the Army Reserve Center No. 3, under the command of the XI U. S. Army Corps (Res), St. Louis. He and Mrs. Overstreet and their three children live at 224-A Gray Plaza, Scott AFB, Ill.

Cadet Thomas R. Ford, jr., son of the Commanding Officer of the 837th Air Division at Shaw AFB, S. C., Colonel and Mrs. Ford, has been named Sergeant/1C in the Corps of Cadets at Riverside Military Academy, Gainsville, Ga., on the basis of conduct and scholastic standing. He has also been elected to membership He has also been elected to membership in the Horton Society, one of Riverside's top leadership groups.

Army Navy Air Force Journal 27 Dec. 1958 (Vol. 96, P. 509)

A FT. LEE "FIRST" is chalked up by Mrs. Ernest H. Beverly (right), wife of the commanding general of the Washington Air Defense Sector headquarters, at a recent Red Cross capping ceremony. She was first in line to receive a certificate from the local Red Cross unit's motor corps, just organized. Handling out certificates to the post's first 12 volunteer drivers was Mrs. Alfred B. Denniston, wife of the commanding general of the QM Training Command and Fort Lee. Mrs. Denniston, only certified Red Cross motor corps worker on post, was instrumental in forming the new service.

INDUSTRY IN DEFENSE

BATTLEFIELD SURVEILLANCE ADVANCES were studied at first hand by General Maxwell D. Taylor, Army Chief of Staff, during a recent visit to the Army Test Station at Yuma, Ariz. The General, who has stressed the need for improved target acquisition, discussed the progress that has been made with Vice President and General Manager L. M. Limbach of the Downey, Calif., Defense and Technical Products Division of the Rheem Manufacturing Company. The Downey plant developed and builds the AN/USD-2 Drone, now undergoing tests at Yuma. Pictured left to right are Lt. Gen. Charles D. Palmer, Sixth Army Commander; Lt. D. R. Walley, Officer in Charge, Surveillance Drone Detachment, Yuma Test Station; General Taylor; Maj. Kirby Lamar, Commanding Officer, Surveillance Drone Detachment, Army Signal Corps, Ft. Huachuca, Ariz.; Jim Hamilton, head of Rheem's Drone Test Section; Mr. Limbach; and W. E. Grago, Rheem Sales Representative.

Rocketdyne Receives NASA Engine Award

The National Aeronautics and Space Administration has chosen Rocketdyne, a division of North American Aviation, Inc., Canoga Park, Calif., as the source for design and development of a rocket engine in the one to one and one-half million pound thrust class. Negotiations for a formal contract with Rocketdyne will open early in January. It is expected that the total cost of the program will exceed \$200 million.

exceed \$200 million.

Six companies submitted proposals in the NASA competition for the large rocket engine project. The selection of Rocketdyne, according to T. Keith Glennan, NASA Administrator, was based on a careful assessment of the technical value of the proposal, and of the facilities, experience and other qualifications of the company.

of the company.

The NASA initiated the competition three weeks after the agency was given the responsibility for development of the high-thrust engine on 1 October by President Eisenhower.

The NASA's long-term big engine program may require a period of from four to six years to bring it to useful completion, Dr. Glennan said. In addition to the design and development of the engine, the program includes the use of Government facilities and test stands to be con-structed at Edwards AFB, Calif. It fur-ther includes Government-furnished fuel for testing components as they are devel-

The engine—designed to deliver far more thrust than any other rocket now in existence—will be used to advance U. S. exploration of space.

Abe Silverstein, NASA Director of Space Flight Development, described the

engine as a liquid bi-propellant, single chamber, booster rocket of 1,000,000 pounds nominal thrust, and capable of being developed to 1,500,000 pounds thrust. He said it will use liquid oxygen and hydrocarbon propellants but will be designed for other liquid, without maken. ryurocaroon propenants but will be designed for other liquids without major change. Special attention will be devoted to methods of simplifying directional thrust control and of pressurizing propellant tanks.

NASA officials said the program will provide a simple, dependable booster of great size. It will be used to launch into space payloads and experiments weighing as much as several tons. Performance flight rating tests of the engine will be based on unmanned vehicle applica-

tions but it may eventually propel manned satellites and space craft.

Rocketdyne was established as a separate division of North American Aviation, Inc., in 1955 to perform research and development work on rocket engines and propellants. The parent company initi-ated its rocket engine work soon after the end of World War II.

Aircraft Industry Sales Up, Profits Down In 1958, AI President Reports

Orders placed with the aircraft indus-try for aircraft and missiles during the first nine months of 1958 increased more

first nine months of 1958 increased more than 50 per cent compared with the first nine months of 1957, but expenditures for the same periods showed only a slight gain.

In making this report on the year 1958, General Orval R. Cook, USAF-Ret., President, Aircraft Industries Association, pointed out that the industry still is "faced with expenditure limitations which limit, and will continue to limit, the scope of the programs."

The year started out, he recalled, in

The year started out, he recalled, in an atmosphere of national concern over the Sputniks coupled with a reduced defense industrial capacity due to reduced Government expenditures during 1957. "In order to cut defense spending," he said, "many contracts had been cancelled, programs had been stretched out, progress payments cut and employment reduced."

Despite the high sales, General Cook said, production of military aircraft de-clined from an estimated 5,500 units in 1957 to about 4,000 units in 1958. However, rising expenditures for missiles and space vehicles partially offset this marked decline. Expenditures for pro-

curement and production of missiles have risen about 60 per cent from fiscal year 1957 to the estimate for fiscal year 1959, he said.

"Sales of the twelve major airframe manufacturers, paralleling those of industry as a whole," General Cook reports, "were about \$7.0 billion, compared to \$6.9 billion in 1957. Earnings, however, continued to decrease. The average net profit, as a percentage of sales of the twelve companies, has decreased steadily since 1954—from 3.7 per cent, to 2.4 per cent in 1957.

"Earnings of the twelve companies

"Earnings of the twelve companies were \$105.8 million for the first nine months of 1958, compared to \$120.1 million for the same period last year. The ratio of earnings to sales for the first three quarters of 1958 was approximately 2 per cent, compared to 2.4 per cent for the similar 1957 period, and the annual ratio of earnings to sales will not im prove over the nine months' ratio.

The decrease in profit of the aircraft companies, although sales have increased, is due to many factors, principally contract cancellations and stretchouts, reduced progress payments, economic limitations, and proportionately more research and development contracts than production contracts."

G-E Sends People To Atlas Site

The General Electric Company will assign approximately 150 engineers, technicians, and supporting personnel to Warren AFB, Wyo., in connection with the installation and check-out of the Atlas ICBM radio command guidance system. The build-up of General Electric personnel is expected to begin early in 1959 and will reach its peak during 1960.

Personnel assigned will be members of the Company's newly formed Defense Systems Department. The Department holds the contract for the design, development, test and manufacture of the Atlas guidance system. Department representatives are currently carrying on similar installation and support for the Air Force at Cape Canaveral, Fla., Keesler AFB, Miss., and Vandenberg AFB, Calif. General Electric responsibilities at Vandenberg include training the nation's first ICBM missile crews in the operation of the guidance system. Several of these crews will eventually be assigned to Warren.

General Electric activities at Warren will be under the direction of Mr. R. G. Henry, Manager of Product Service for the new Department. According to Mr. Henry, formation of the Department has enabled General Electric to gather its top defense management and technical talent "under one roof" to provide the military with front line assistance in attaining defense systems objectives.

Northrop Names Gates **Product Planning Chief**

C. Robert Gates, formerly of the Northrop Aircraft Corporate Development Planning staff, has been elevated to Director of Product Planning for the company's Northrop Division at Hawthorne Calif

The appointment coincides with elevation of the product planning function to division staff level, according to Rich-ard R. Nolan, Vice President and General Manager of the Northrup Division.

Mr. Gates joined Northrop in October Mr. Gates joined Northrop in October 1955 after three years of service in the Office of the Director of Development Planning, USAF Headquarters. He holds BS and MS degrees in aeronautical engineering, respectively, from the University of Oklahoma and the Massachusetts Institute of Technology.

Naval Supply Center Get Philco "Brain"

The Oakland, Calif., Naval Supply Center will install the Philco Transac S-2000 electronic "brain."

The S-2000 can add 10 digits plus 10 gits 60,000 times in one second, read write information on magnetic tape at the rate of 90,000 characters per sec-ond, and print reports at the rate of 900 lines per minute (120 characters each

RAdm. R. J. Arnold, Supply Center Commander, said the new data process-ing equipment will greatly facilitate the work at the Center, which provides 90 per cent of the supply and logistic support to ships and shore stations in the Pacific ocean area. This involves proc-essing over one million orders per year from an inventory of 635,000 different items of stock which have a \$788,000,000 inventory value.

Science Center Opens

Near Nation's Capital A planned science industry center has been established in Montgomery County, Md., to accommodate science-orientated industries which wish to locate in the

National Capital area.

Known as the Washington-Rockville
Industrial Park, the Center is located
on Rockville Pike at Randolph Road in

on Rockville Pike at Randolph Rockville, Md.
Rockville, Md.
Information can be obtained from either George J. Moss, President, Washington-Rockville Industrial Park, Montgomery County, Md.; or from Capitol Research Associates, Rockville, Md.

Defense Builders

Clevite Corp.'s Brush Instruments Division, Cleveland, has introduced a militarized two channel readout-recorder for monitoring any servo system.

Presstite-Keystone Engineering Products Co., St. Louis, has announced a new No. 55 Military Type compound for sealing concrete paving joints on jet air-fields.

Minneapolis-Honeywell Regulator Co. and the Air Force have announced joint development of a new hermetic integrat-("Floated") gyroscope, for use with long-range, high accuracy inertial guidance and navigation systems. The extra sensitive and rugged gyro will be used on missiles, satellite launchers and other vehicles under development. M-H has also developed a 4.2 pound, com-pletely transistorized true air speed indi-cator which requires only 10 watts of

Nuclear Products-Erco Division of ACF Industries will produce an electronic flight simulator for the Navy's **Grumman** S2F-3 anti-submarine warfare airplane.

Martin Names Pearce

Creation of a new corporate office. Manager of Electronics Requirements, has been announced by George M. Bunker, President of The Martin Company. The post will be filled by John M. Pearce, former Vice President and General Manager of The Hoover Electronics Company, Timonium, Md.

Mr. Bunker noted that the manufac-

ture of missiles, associated equipment, and electronics systems now constitutes approximately 70 per cent of Martin's business at the company's Baltimore, Denver, and Orlando divisions.

Mr. Pearce served as a unit supervisor on the "VT" proximity fuse program at The Johns Hopkins University Applied Physics Laboratory during World War II. Prior to establishing his own electronics company in 1952, which later merged with Hoover, he headed Martin's electronics department at Baltimore from 1947-1952 during the conception and development of the USAF Matador Tac tical missile.

Former Governor Joins Aerojet

Fred Hall, 42, 1955-57 Governor of Kansas, has been named Director of Management Control for Aerojet-Gen-eral's Solid Rocket Plant at Sacramento.

Since 1957 he has served as a Justice of the Kansas Supreme Court. Previously, he had been County Attorney of Ford County, Kansas and Lieutenant Governor of the State.

MISSILE RANGE AWARD

Collins Radio Company of Cedar Rapids, Oowa, has received a Navy contract of about \$2-million for a high density microwave system to be used at the Pacific Missile Range. The system when installed will connect the main control censor at Point Mugu, Calif., and sub-sidiary centers at San Nicholas Is-land and Point Arguello, a total transmission distance. transmission distance of more than

Collins officials said the equip-ment will relay information such as voice communication, teletype, telemetering, radar and video from each site to each of the other

The contract, which includes installation and testing of the equipment and training of the operational crew, is scheduled for completion in 1959.

Holder,
Kinder, Holder, Bobby W Kinder, Norman W Lockheed F-104 Sets New Time-To-Climb Mark At Mugu; Official 1958 FAI Powered Aircraft Records Reported

THE USAF Lockheed F-104 Starfighter, already holder of official world records in speed and altitude, has set seven new time-to-climb flight marks.

The new flight records were made at Point Mugu Naval Air Station by First Lieutenants William T. Smith and Einer K. Enevoldson, both of the 538th Fighter Interceptor Squadron, Larson AFB, Wash., and were announced by Maj. Gen. Hugh A. Parker, commander of the Western Air Defense Force.

The National Aeronautic Association timed the records and has submitted them to the Federation Aeronautic International for global recognition. If the records are confirmed, the F-104 becomes the first airplane to hold world records in all

three categories—speed, altitude, and time-to-climb.

General Parker said that the marks were established during an Air Defense Command exercise designed to evaluate

Command exercise designed to evaluate maximum interceptor climb capabilities.
The new records set by the F-104 are:
To 3,000 meters—41.85 seconds
To 6,000 meters—58.41 seconds
To 9,000 meters—1 minute 21.41 seconds
To 12,000 meters—1 minute 39.90 seconds
To 15,000 meters—2 minutes 11.1 seconds
To 20,000 meters—3 minutes 42.99 seconds
To 25,000 meters—4 minutes 26.03 seconds
No previous record exists for the latter
two events, Existing official FAI records
for the other events are listed below.
Following is a complete tabulation of
records for powered aircraft made in the
United States during the year 1958 and

United States during the year 1958 and confirmed as official by the Federation Aeronautic International after having been checked by the National Aeronautic Association.

General Galloway's Hats Accent Engineer's Modernization Role

From first page— chart that I wear three hats. One is as the Commanding General of the Engineer Center. The second is as Commandant of the Engineer School. My third hat is Commanding General of the Engineer Research and Devel-opment Laboratories."

General Galloway says this set-up makes it possible for him to move ex-peditiously on all missions assigned by Maj. Gen. E. C. Itschner, the Army

Chief of Engineers.

It's not the same in all of the Army's technical services. The Engineers seem to stand alone insofar as integration under one command at one site of training, combat develop-ments, and research and develop-ment is concerned.

The historic battle of Army engineers against the demands of time is pointed up here in the fact that a successful "look ahead" achievement of the Engineer Research and Devel-opment Laboratories need not travel opment Laboratories need not travei great distances through time-consum-ing command and staff channels be-fore it is ready for inclusion in the Continental Army Command's Com-bat Developments System, and the training of Engineer troops.

Actually, the distance is only from one part of the Center, where ERDL is located, to another part of the Cen-

Is located, to another part of the Center, which is the home of the Army Engineer School.

The day-to-day responsibility for the running of the Engineer School, under policy lines laid down by General Galloway, is delegated to the Assistant Commandant, Brig. Gen. J. H. Dudley

During this fiscal year, the Engineer School will graduate more than 3500 officers, including scores from Allied nations, and approximately 000 enlisted men, many of them from

foreign countries.
"Our objective," says General Dudley, "is to graduate officers and men who will be ready for new assign-ments the next month, who will be ments the next month, who will be prepared for all developments that will come along in the next six months to a year, and who, in the case of career people, also will have an understanding of what appears to be in the offing for some years ahead."

In the same manner that General

Galloway stresses the importance of "unified di-rection" of the Engineer Center as a whole, Genwhole, Gen-Dudley de-scribes as "ex-tremely sig-nificant" the presence at the School of a Combat Develop-ment Group. Combat Under com-

Gen. Dudley

mand of Col. Frank Milner, the Combat Development Group is an integral part of the Engineer School. In the "other" combat arms the word "other" is used because Army

Engineers are sensitive when their combat status is not given full recogcombat status is not given full recog-nition the Combat Development Group also may be part of a School, as for example at the Ft. Benning, Ga., Infantry School, or the Ft. Knox, Ky., rmor School.
But at these latter schools, there is

no research and development activity at the same base, comparable to the Engineer Research and Development Laboratories, under one overall com-

And at the Technical Services major school centers, the Combat Development Group frequently is not part of the school itself, but instead is a field board activity. Major R&D fa-cilities often are located at other fa-cilities than the schools.

The Engineers feel certain that for their needs, the integrated organiza-

tion at the Belvoir Center is best. Colonel Milner relates that the physical location of the Combat De-

velopment Group in the Engineer School assures rapid dissemination of new doctrine to students. "It also means," he adds, "that the students here, who are encouraged to

state their viewpoints on all new developments, frequently express ideas which merit immediate transmittal to the Chief of Engineers and to CON-

Under Colonel Milner, the work of the Combat Development Group is centered in three Project Group units, headed by Lt. Col. G. S. Wittwer, Lt. Col. J. E. Burke, and Maj. J. R. Brownell, jr.

The Training Division at the School, headed by Col. G. A. Finley, with Lt. Col. J. E. Vick, jr., as Executive Officer, is responsible for planning, coordinating, supervising and evaluation both resident and non-resident in struction

struction.

Colonel Finley says there are no immediate plans for any significant changes in the career type officer courses, at the apex of which is the 39-week Officer Advanced Course, and the 17-week Associate EOAC.

Although the designation and general content of these and other courses.

eral content of these and other courses are confronted with an increasingly complex problem of adding new ma terial, such as related to missiles without being able to extend the period of instruction."

In the enlisted courses, Colonel Finley indicates that the introduction of new material is in some ways less

difficult than in the officer courses. This is because it is possible to eliminate present courses entirely or add new ones as the situation requires.

Thus, where the School now gives eight courses per year in the generation of liquid oxygen and none in solid propellants, this will change with the introduction of new weapons, such as the Pershing Missile being built by the Orlando, Fla., plant of the Martin Company.

In addition to training Army officers from other branches and members of other U. S. Services, the 55 officer courses given each year at the Engineer School include many foreign

General Dudley says the benefits greatly from the added stimu. lus provided by the foreign students, many of whom are called upon to give special reports on particular military engineering problems of their areas.

Entire courses given at the School have been translated into foreign languages for use in special Allied classes held from time to time at Ft. Belvoir. Thus, there are textbooks and manuals of Engineer School classes in French, Danish, Norwegian, Greek, Turkish, Dutch, and Flemish, among

(Next week's issue of THE JOUR-(Next week's issue of THE JOUR-NAL will featrue a special report on another key activity of the Belvoir Center, the Engineer Research and Development Laboratories where Di-rector is Col. A. H. Davidson, jr.)

Worried About National Defense?

WE firmly believe that every person reading this issue of The Journal with the exception of the Soviets and their Communist friends—will be concerned about the cuts in our Fighting Forces.

Manpower is going down . . . combat units are being eliminated . . . weapon programs are being scrubbed . . . a cut-rate legislative program is being readied for the new Congress . . . career opportunities are being subjected to new perils.

But there is still hope for a counter-offensive against the threat of new

blows at the combat readiness of the Armed Forces.

Major decisions will be made by Congress, particularly in the area of career attractiveness for military men and their families.

With the approach of the New Year, the "Spokesman of the Services" gives to its readers—old and new—an unequivocal pledge that we shall do everything possible to present the full story of what actions are essential to assure National Security.

The impact of force level cuts will be analyzed . . . weapon needs will be stressed . . . legislative deficiences will be accented . . . the need for adequate Service family medical and dental care will be explained . . . also the urgent requirement for military pay justice across-the-board . . . career attractiveness shortcomings will be revealed for what they are—deterrents to effective combat forces.

In 1959, as has been the case every year since 1863, members of the Armed Forces can look to THE JOURNAL to fight their fight . . . which is the fight for National Preparedness.

We think you will want to bolster that effort by subscribing now.
